# PREFACE

Examination is an important tool of assessing the progress made by students in their academic journey. Analyzing examination results statistically is a must as it helps to understand the academic input by the teachers and the quantum of its receptivity by the students. It is also useful in order to estimate the availability of manpower, its proper planning and for assessing the demand for higher education in the country as well as catering to the needs of different organizations, educational planners and research scholars. Hence, the Ministry of Human Resource Development lays great emphasis in analyzing the board examination results.

This publication contains important statistics of examination results of the High School, Higher Secondary and Intermediate/Pre-University Examinations conducted by the various Boards in the country for Secondary, Higher Secondary and Pre-University education. I take this opportunity to place on record the co-operation received from the offices of State and Central Boards of Secondary, Higher Secondary and Intermediate/Pre-University Education who have supplied the required data in time for bringing out this publication. I also express my appreciation of the work done by the Project Staff of the Statistics Bureau in bringing out this publication.

It is our constant endeavour to improve the coverage in this publication as well as its presentation based on the feedback from its users. Further suggestions, if any, for improving the publication are always welcome and may be sent to Shri Chander Kant, Joint Director in this Department.

# INTRODUCTION

One of the major functions of the Boards of School Education is to conduct external examination at the end of class X and XII. These results have assumed high importance for enabling students to enter job market as well as for pursuing higher education. The result at the end of class XII is all the more significant as this leads students to enter tertiary level of education, including academic and professional courses of the university level.

It is of vital importance to know the performance of the product of secondary and senior education at these two crucial stages of their educational career for proper educational planning.

The need to analyse external examination results and to communicate them to the students and teachers was felt with a view to improve their performance. It is difficult to judge the efficiency of the educational system, unless examination results are properly and systematically analysed.

The data on results of Secondary and Higher Secondary/Intermediate examination contained in the publication have been collected from various Boards in the country. Three boards namely; Gujarat Board of Secondary and Higher Secondary Education, Jammu & Kashmir State Board of School Education and Kerala board of Secondary Education did not furnish the data within stipulated time frame. To avoid delay in dissemination of data at the national level, previous year (2006) data has been repeated in the current year for these three Boards.

There are two boards for conducting Secondary and Higher Secondary level examination in Andhra Pradesh, Assam, Bihar, Karnataka, Manipur, Orissa and West Bengal. Among all the boards in the country, Uttar Pradesh (U.P.) High School and Intermediate Education Board is the largest Board as far as number of candidates appearing every year is concerned. The second largest board is the Maharashtra State Board of Secondary and Hr. Secondary Education followed by the Madhya Pradesh (M.P.) Board of Secondary and Hr. secondary Education. The smallest Board in the country is the Mizoram Board of Secondary Education.

The following Boards conduct Intermediate/Pre-Degree examination at higher secondary level:

1. Board of Intermediate Education, Andhra Pradesh
2. Bihar Intermediate Education Council
3. Board of Pre-University Education, Karnataka
4. U.P. Board of High School and Intermediate Education.
5. Uttaranchal Shiksha evem Pariksha Parishad.

There are three open Boards namely, National Institute of Open schooling, New Delhi, M.P. Open School, and Rabindra Mukta Vidyalaya, West Bengal. These Boards conduct examination for both Secondary and Higher Secondary examinations. Examination is conducted twice in a year during the month of March-May and September- November. In Open Schools, system of examination is different from other State and Central Boards. They provide a flexible scheme of examination by giving an opportunity to appear in one, two or more subjects and credits are accumulated till the certification criteria is fulfilled. A candidate can avail as many as nine chances to appear in public examinations spread over a period of five years unlike a time span of one year for other boards. . There is no bifurcation of regular and private students and also no need of supplementary examination. It is, therefore, difficult to compare the results of open school system with that of other State/ Central Boards. However, in the present publication, total number of appearing/ passed students in open board has been presented by adding the number of students appeared/passed in March-May as well as in September-November. The pass percentage of open school system seems to be on lower side in the publication. The reason is that number of appearing students includes all the students appearing in the exam whether for one or two or more subjects while number of passed students includes only those students who get certification i.e. passed all the 5 subjects.

Among Open School Boards, NIOS is the largest Board as far as number of candidates appearing every year is concerned and Rabindra Mukta Vidyalaya, West Bengal is the smallest board.

Various tables contained in this publication give the sex-wise detailed information in respect of number of candidates who appeared and passed along with the pass percentage. The information regarding number of candidates who appeared and passed as regular and private students from various boards has also been given. Information on Scheduled Castes and Scheduled Tribe candidates who appears and passed in these examinations has also been given in this publication separately wherever available.
