Efforts have been made to ensure the accuracy of the content on this report. However, the same should not be construed as a statement of law or used for any legal purposes. In case of any ambiguity or doubts, users are advised to verify/check with the appropriate Government Functionary/Authority and/or other source(s) and to obtain appropriate professional advice. This Report is based on voluntary uploading of data by the Districts in a reference year. The responsibility for the accuracy of the data filled in the portal rests with the concerned District Education Officer at the district level and the State Project Director (SPD) of Samagra Shiksha at the State level. For newly formed districts, the NAS scores are taken as the same of the old district from which the district is created. However, if the district is created from two or more districts then average score of those districts is calculated. As a result, the district scores are calculated based on the remaining indicators and hence the score obtained by these Districts may not reflect true picture. The Ministry of Education, therefore, assumes no responsibility or liability for any errors or omissions in the data reported by the districts and used in the document.

Performance Grading Index (PGI)
for
Districts of India
(PGI-D)

I. Introduction

1.1 Performance Grading Index (PGI) is a relatively new index that measures the performance of states in school education. Department of School Education & Literacy (DoSEL) has so far released PGI report for States/ UTs for the years 2017-18 to 2020-21. PGI aims to assess the relative performance of all the State/UTs in a uniform scale to encourage State/UTs to perform better. The PGI has been conceptualized as a tool to catalyse transformational change in the field of school education. PGI provides insights on the status of school education in States & UTs, including key levels that drive their performance and critical areas of performance. PGI aims to propel States & UTs towards undertaking multi-pronged interventions that will bring about the much desired optimal education outcomes. The PGI also motivates States and UTs to adopt best practices followed by the top performing States.

1.2 Based on the success of State PGI and to provide district level measures for effective assessments of educational attainment, DoSEL decided to extend PGI exercise to District level by creating a new PGI for District (PGI-D). The PGI-D is crafted with more focused objective of assessing districts on a common parameter with attention now shifting towards outcome measurement of educational policies.

1.3 In the last two years, Covid-19 pandemic has highlighted the changes required to be made in our existing system in terms of the adoption of digital learning as part of mainstream learning to continue education at home in face of any such crisis. This necessitated need for a domain on digital learning in PGI-D which is not there in State PGI. Similarly, a new category on effective classroom transaction has been included to understand the potential of learning management and activities that translates into outcomes. PGI-D also aims to provide insights into the status of school education in all the Districts, including key levels that drive their performance in critical areas and to catalyze transformational change in the field of school education. It will help all the stakeholders in the school education system, including the students, parents, teachers, and administrators to know the performance of their district vis-à-vis other districts. The indicator-wise PGI-D score shows the areas where a State needs to improve. PGI-D is expected to help the state education departments to identify the gaps if any, at the district level and improve their performance in a decentralized manner. The PGI-D would propel the States to strengthen data monitoring system at the district level.

II. Data Source

2.1 PGI-D is constructed based on identified indicators and domains. The data for PGI-D 2020-21 was drawn from several sources, viz., Unified District Information System for Education Plus (UDISE +) 2020-21, National Achievement Survey (NAS) 2017 and data provided by respective Districts. Similarly, for PGI-D 2021-22, data from UDISE+ 2021-22, NAS 2021 and on few indicators data provided by respective Districts for 2021-22 are used.

2.2. The district wise data for the indicators related to minimum proficiency (Proficient and Advanced) of Class 3, Class 5 and Class 8 are provided by National Council for Education Research & Training (NCERT) from NAS 2017 and NAS 2021. For the Class 10, district wise proficiency data were not available from NAS 2017. As was done in previous report of PGI-D, for the indicators on minimum proficiency in Class 10, data on distribution of students who answered NAS questions correctly (50% or more) are taken for PGI-D 2020-21. Further, in some of the districts NAS for Class 10 was not held (all districts of West Bengal, and Uttar Pradesh etc) and class 8 proficiency score of the respective subject is substituted while arriving PGI-D 2020-21. However, for PGI-D 2021-22 actual proficiency values reported by NCERT was taken.

2.3 UDISE + data were pre-filled in PGI –D portal and State/ district entered data of about 55 indicators from their MIS. The final PGI-D score for 2020-21 and 2021-22 are computed based on the final figures reflected in PGI portal.

III. Methodology

3.1 The architecture of the PGI-D emanates from the rationale that an efficient, inclusive and equitable school education system is contingent upon the regular monitoring of interconnected matrices of inputs, outputs and outcomes related to school education indicators, and the development of a quick response system for course correction in the entire system.

3.2 The PGI-D structure comprises of total weightage of 600 points across 83 indicators, which are grouped under 6 categories viz., Outcomes, Effective Classroom Transaction, Infrastructure Facilities & Student's Entitlements, School Safety & Child Protection, Digital Learning and Governance Process. These categories are further divided into 12 domains, viz., Learning Outcomes and Quality (LO), Access Outcomes (AO), Teacher Availability and Professional Development Outcomes (TAPDO), Learning Management (LM), Learning Enrichment Activities (LEA), Infrastructure, Facilities, Student Entitlements (IF&SE), School Safety and Child Protection (SS&CP), Digital Learning (DL), Funds convergence and utilization (FCV), Enhancing CRCs

Performance (CRCP), Attendance Monitoring Systems (AMS) and School Leadership Development (SLD). Following the same approach of State PGI, districts are graded. Ranking approach is not followed to discourage the practice of one improving only at the cost of others, "thereby casting a stigma of underperformance on the latter". Ultimate objective of PGI-D is to help the Districts top priorities areas for intervention in school education and thus improve to reach the highest grade.

3.3 The category and domain wise summary of Indicators and its weightage in their performance in overall PGI-D index is presented below:

Categories	Domain	Indicators	Score
1. Outcomes	Learning Outcomes& Quality (LOQ)	12	180
	Access Outcomes (AO)	7	70
	Teacher Availability & Professional Development Outcome(TAPDO)	6	40
2.Effective Classroom Transaction (ECT)	Learning Management (LM)	9	60
	Learning Enrichment Activities (LEA)	15	30
3 Infrastructure, Facilities, Student Entitlements (IF & SE)		12	51
4. School Safety and Child Protection (SS &CP)		7	35
5 Digital Learning (DL)		5	50
6 Governance Processes (GP)	Funds convergence and utilisation (FCV)	2	14
	Enhancing CRCs Performance (CRCP)	2	20
	Attendance Monitoring Systems (AMS)	4	40
	School Leadership Development (SLD)	2	10
Grand total	**12**	**83**	**600**

3.4 The points assigned to indicators ranges from 2 to 20, whereas points assigned to each Domain ranges from 10 to 180. While structuring PGI-D weightage, qualitative indicators viz., Learning Outcomes & Quality (LOQ), Access Outcomes (AO), Teacher Availability & Professional Development Outcome (TAPDO), Learning Management (LM), Learning Enrichment Activities (LEA) put together have a weight of 380 point or 63% weightage. Therefore, PGI-D is expected to measure district level school performance more closely. The details of indicators/ sub-indicators and their respective weight are at **Annexure-IV**. This benchmark/optimum level for each indicator has been carefully identified and the DoSEL has ensured that these are reasonable.

3.5 The score of each indicator is arrived by multiplying proportionate score of the indicator with weightage of that indicator. For example, for the indicator proficiency in Mathematics in grade 5, total weight was 20 and if a given district has 50% students of grade 5 who achieved minimum proficiency in Mathematics, then score obtained for this indicator is 20X0.5=10. However, in case of a few Indicators, a lower value would

score a higher weightage, e.g. the Outcome indicator, viz., percentage of Government school teachers in the district who have been assigned non-school duties pertaining to Departments other than Elections and Population Census (Government Schools). In this case, districts assigned maximum non-teaching duties other than Elections and Population Census to teachers will get minimum marks where as district which has not assigned any non-teaching duties other than Elections and Population Census to teachers will get full marks.

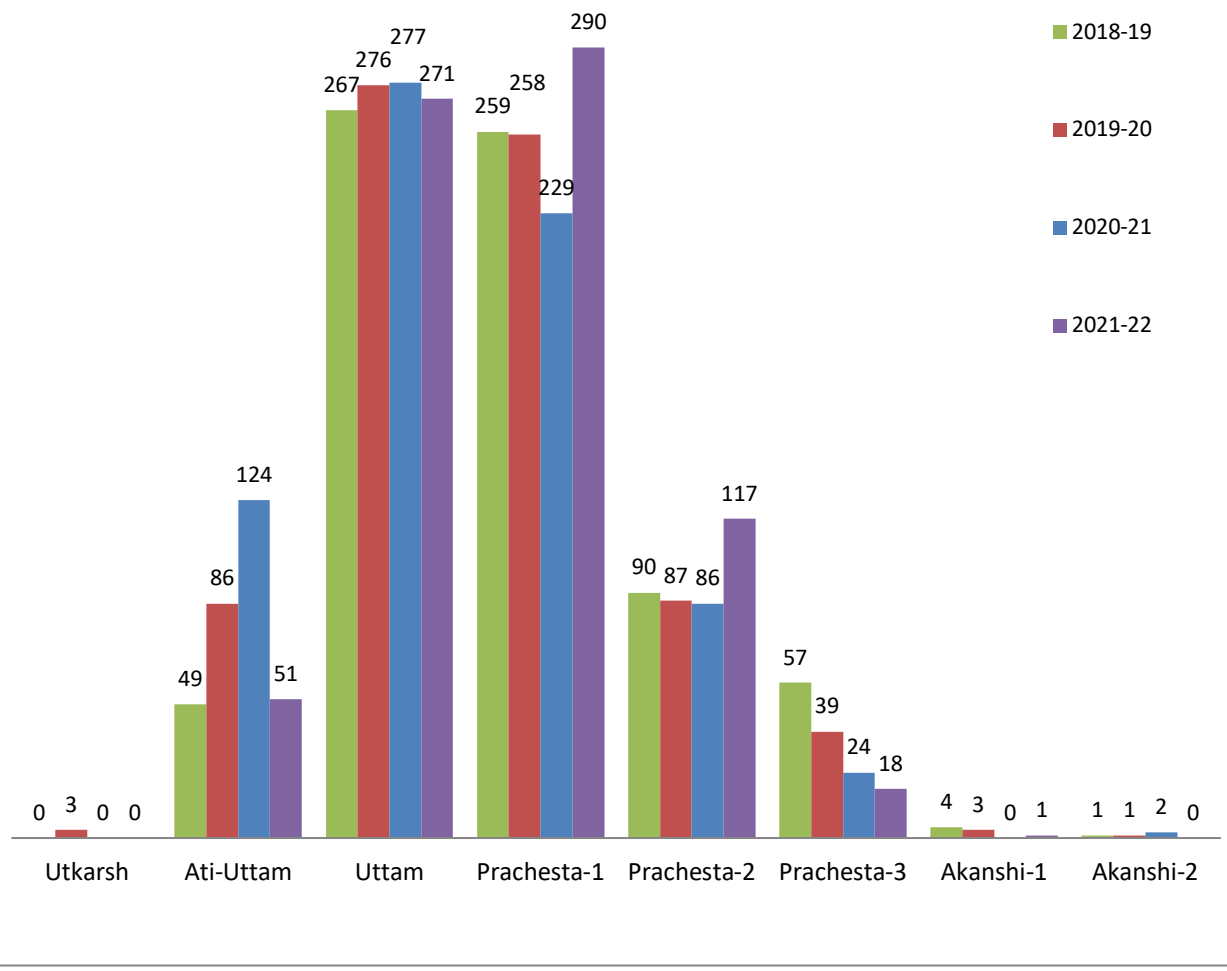
3.6. In PGI-D, the nomenclature for PGI score is classified into various grades. Highest achievable Grade in PGI-D is Daksh, which is for Districts scoring more than 90% of the total points in that category or overall. The category overall scores are then reduced by an equal width of 10 % of total points of in that category or overall points for arriving to the next Grade. For example, Utkarsh is for the district having PGI score of 81% to 90%, Ati-Uttam: 71% to 80%, Uttam: 61% to 70%, Prachesta-1: 51% to 60%, Prachesta-2: 41% to 50%, Prachesta-3: 31% to 40%, Akanshi-1: 21% to 30%, Akanshi-2: 11% to 20%. The last one, namely Akanshi-3 is for scores upto10%. Thus, position of a district in different grading categories is relative and can change depending upon its performance in each year. At the same time, all districts can occupy the highest-Grade Daksh simultaneously, and that is the ultimate objective of this exercise.

3.7 The PGI-D 2020-21 covers 742 districts including 9 new districts created during year viz., five in Tamil Nadu (Kalakurichi, Chengalpattu, Ranipet, Tirupathur, Tenkasi), one in Chhattisgarh (Gourela Pendra Marvahi), three in Mizoram (Saitual, Hnahthial, Khawzawl). Similarly, PGI-D 2021-22, is based on 748 districts with six new districts created during the year viz., two in Assam (Bajali & Tamulpur), one in Karnataka (Vijayapura), one in Punjab (Malerkotla) and two in Sikkim.

IV. Summary of PGI-D

4.1 The Grades attained by Districts during 2018-19 to 2021-22 are in Chart 4.1. Being the Covid Pandemic years and learning outcomes based on NAS 2021 have impacted the performance of districts during 2020-21 to 2021-22 as compared to 2019-20. None of the districts attained top two grade viz., ***Daksh*** and Utkarsh during 2020-21 & 2021-22 implying there is ample scope for the districts to further improve their performance in future years. Year wise performance analysis of districts reveals that, 79 districts made consistent improvement in PGI-D scores in last 4 years viz., 2018-19 to 2021-22, whereas 25 districts consistently performed poorly during the same period. Inspite of Covid pandemic at its peak in 2021-22, 290 districts have made notable improvement in their performance when compared 2019-20 (pre-pandemic) with 2021-22.

Chart 4.1: Distributiuon of Districts in different Grades during 2018-19 to 2021-22.



4.2 Grade level Improvement of districts in 2021-22: A major purpose of the PGI is creation of an environment that would nudge each district to improve its performance continuously. Overall 194 districts have made grade level improvement in 2021-22 as compared to 2018-19, and of these 194, 7 districts had highest performance securing 3 grade jumps in 2021-22 as compared 2018-19, 23 districts improved their performance by securing upward shift of two grades in 2021-22, 164 districts improved their grade by one level in 2021-22 as compared to 2018-19. Total of 375 districts remained in the same grade in 2021-22 as compared to 2018-19 and remaining 158 district's performance deteriorated during 2021-22 as compared to 2018-19. The comparison is given in below table:

Year	2021-22							
2018-19	**Grade matrix**	Ati-Uttam	Uttam	Prachesta-1	Prachesta-2	Prachesta-3	Akanshi-1	Total

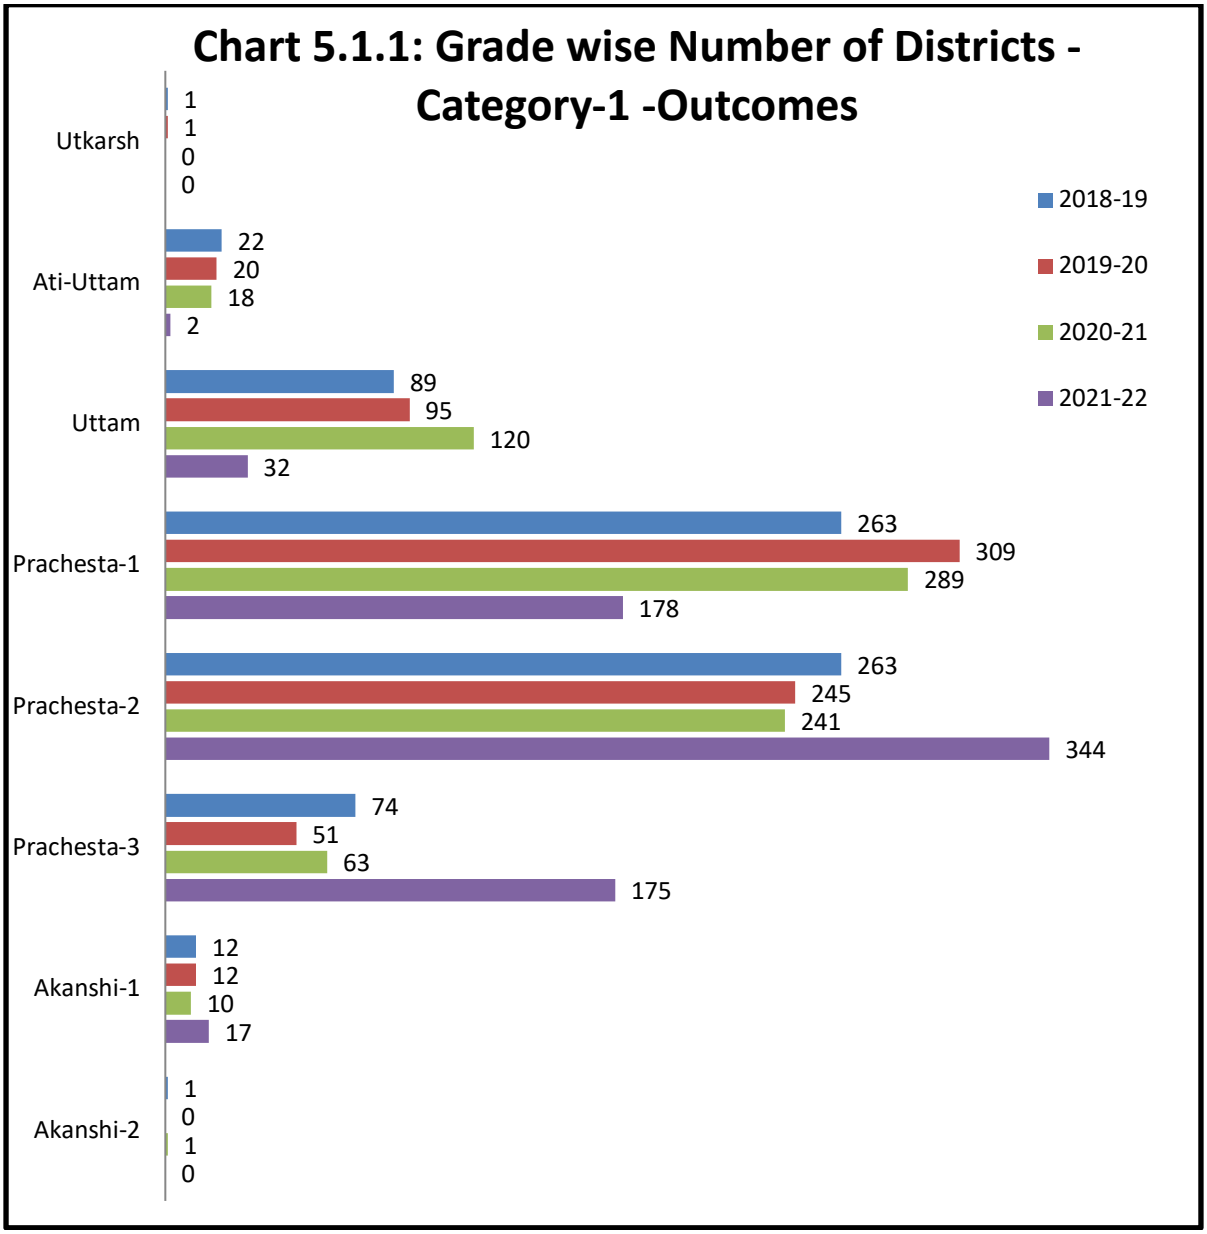
4.3 The summary and category wise PGI-D scores of Districts for the year 2020-21 and 2021-22 are given at **Annexure-I** and **Annexure-II** respectively**.** The details of scores obtained by the district in last four years along with grade obtained are presented in **Annexure-III.**

IV. Category/ Domain wise PGI district score card

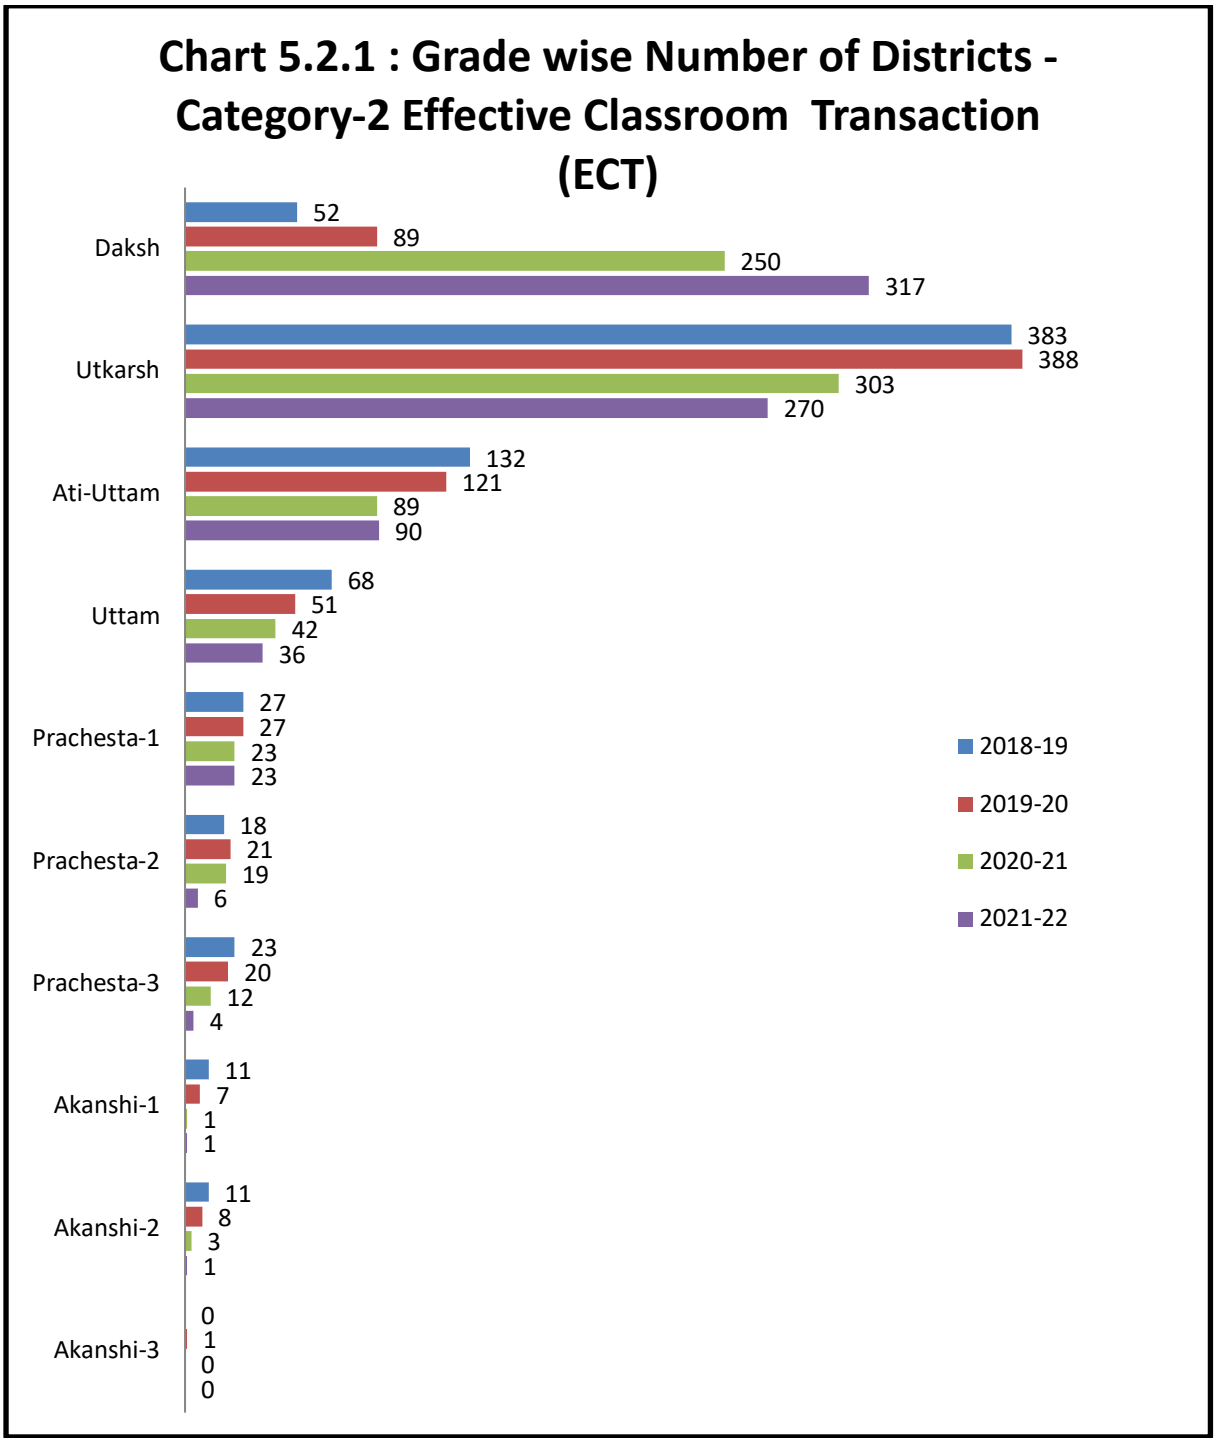
5 The PGI-D scores are the aggregate score of 6 categories of educational attainment of districts viz., (i) Outcomes (ii) Effective Classroom Interactions (iii) Infrastructure Facilities & Student's Entitlements (iv)School Safety & Child Protection (v) Digital Learning and (vi) Governance Process. The performance of districts in each

of these category are presented in this section to highlight areas of good practices and weak links among districts so as to provide insights into future action plan by districts.

5.1 Chart 5.1.1 depicts performance of districts in the 1st Category viz., Outcomes. This category has 290 points out of 600 points or 48% weightage in the Index and is also predominantly a qualitative assessment based indicator. The Outcomes scores shows that, 11 districts made grade level improvement by two or more notches, 65 districts made grade level improvement by one notch as compared to 2019-20 and 90 districts have made improvement in their score 2021-22 but remained in the same grade of 2019-20. However, none of the districts attained top two grade viz., *Daksh* and Utkarsh during 2020-21 & 2021-22 in this category indicating ample scope for making improvement by districts on qualitative aspects of school education.

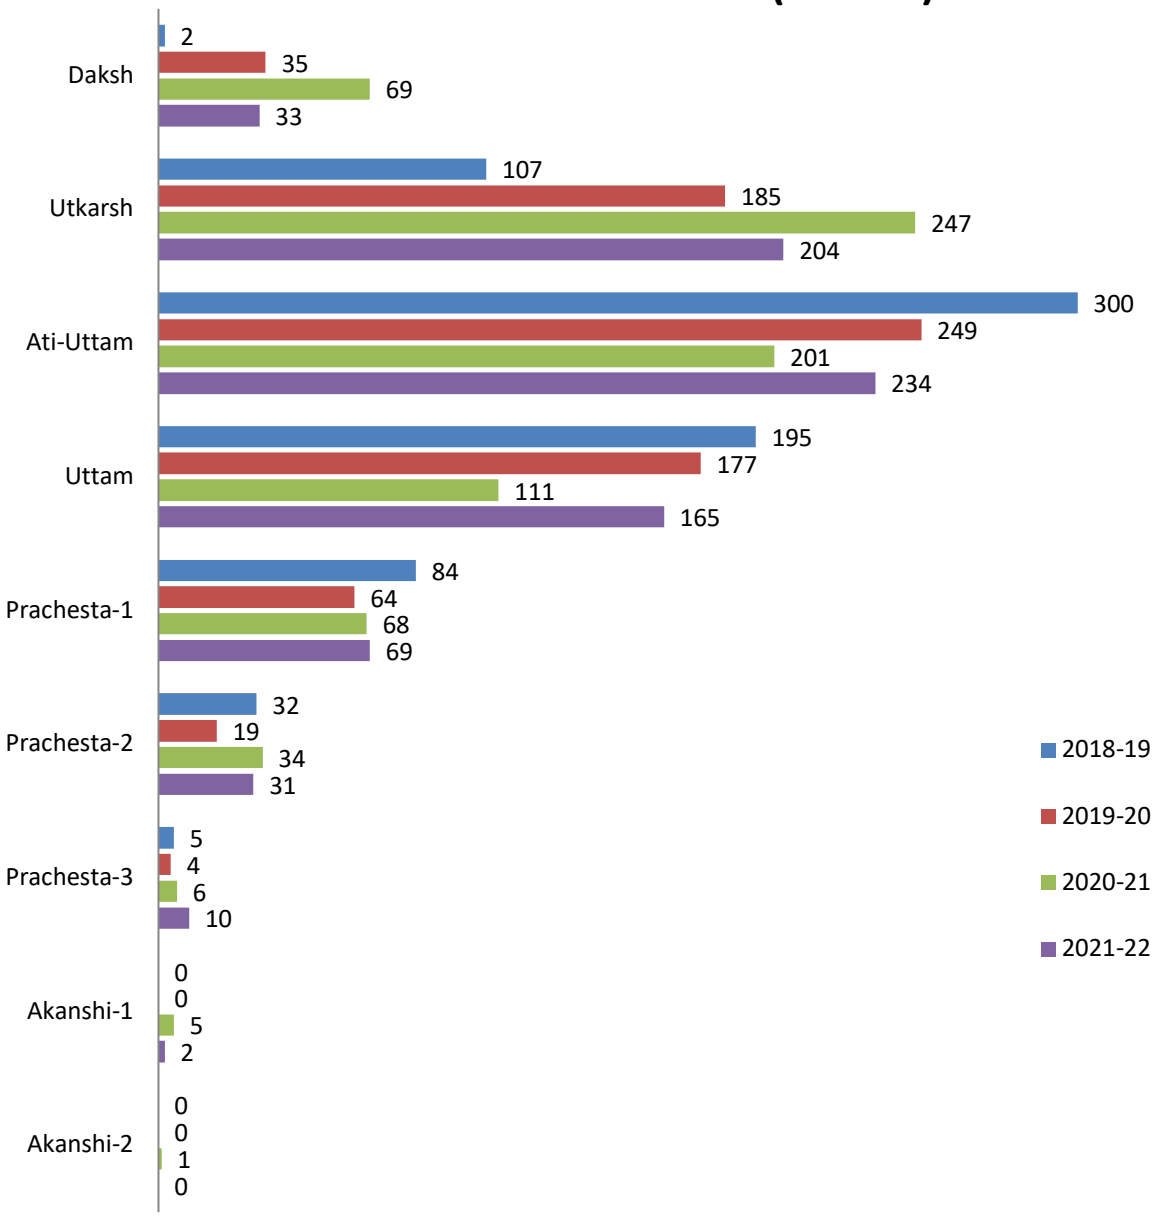


5.2 The Chart 5.2.1 shows the performance of districts in the 2nd category viz., Effective Classroom Transactions. During 2021-22, total of 613 districts made improvement in scores of which 60 districts made more than 20 % improvement in scores and 124 districts improved their score by over 10 % resulting into grade level improvement in 2021-22. Notably, maximum number of districts were shifted to top end of the Index which is the ultimate goal of PGI-D.



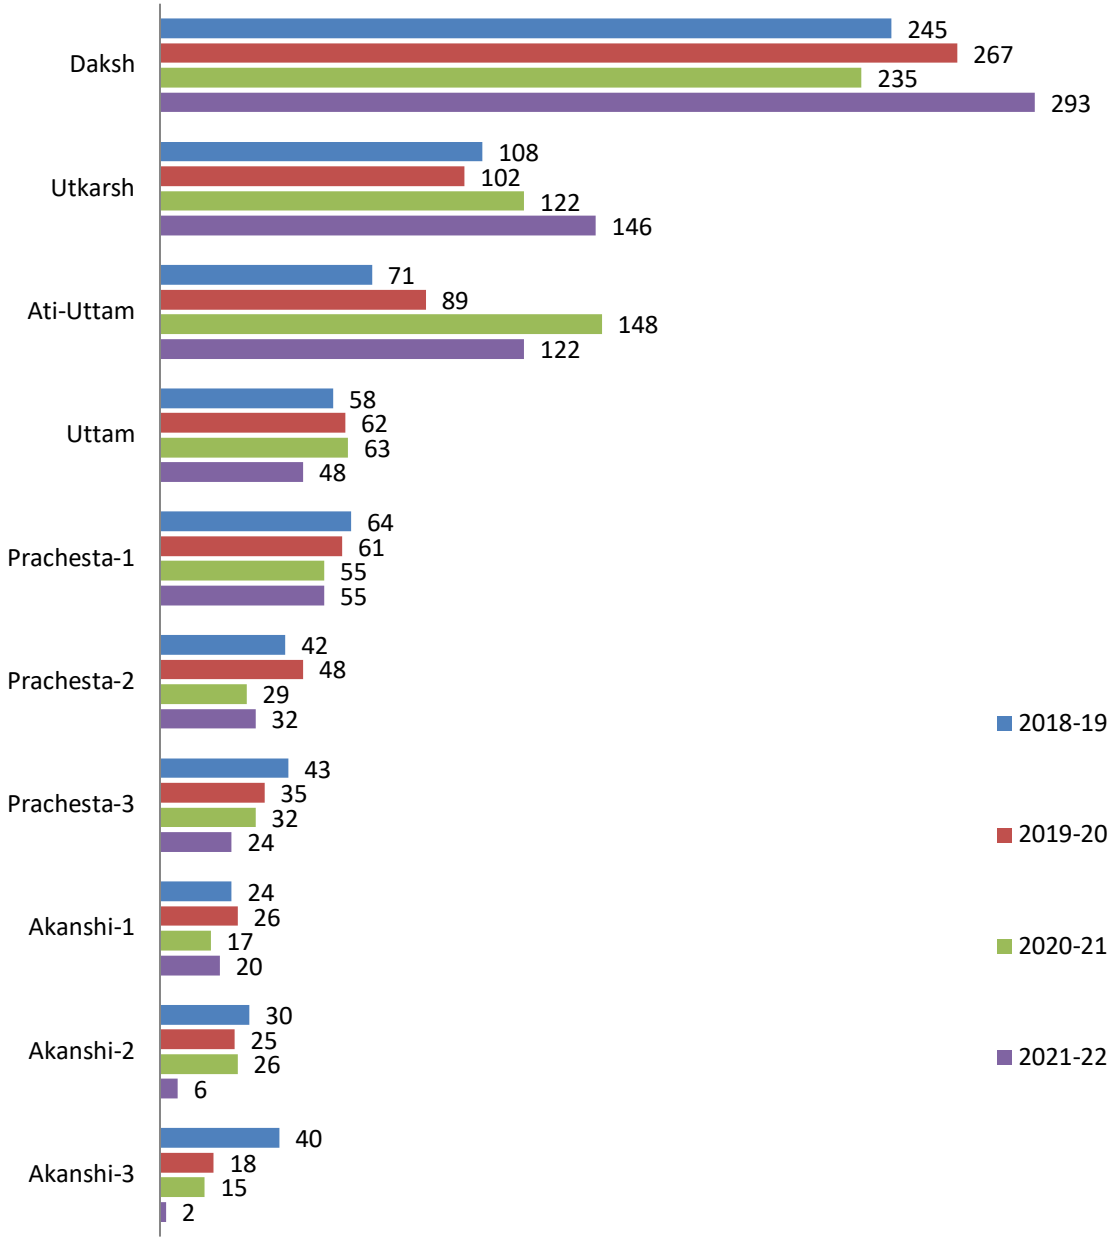
5.3 Chart 5.3.1 depicts the attainment of districts in 3rd category- Infrastructure, Facilities, Student Entitlements (IF & SE). Overall 362 districts made improvement in score during 2021-22 as compared to 2019-20, of these 228 districts made grade level improvement. It is also noted that, 31 districts made over 20 % improvement in score or jumping two grades, 93 districts made an improvement of over 10 % or a one grade improvement.

Chart 5.3.1: Grade wise Number of Districts in the Category Infrastructure, Facilities, Student Entitlements (IF & SE)



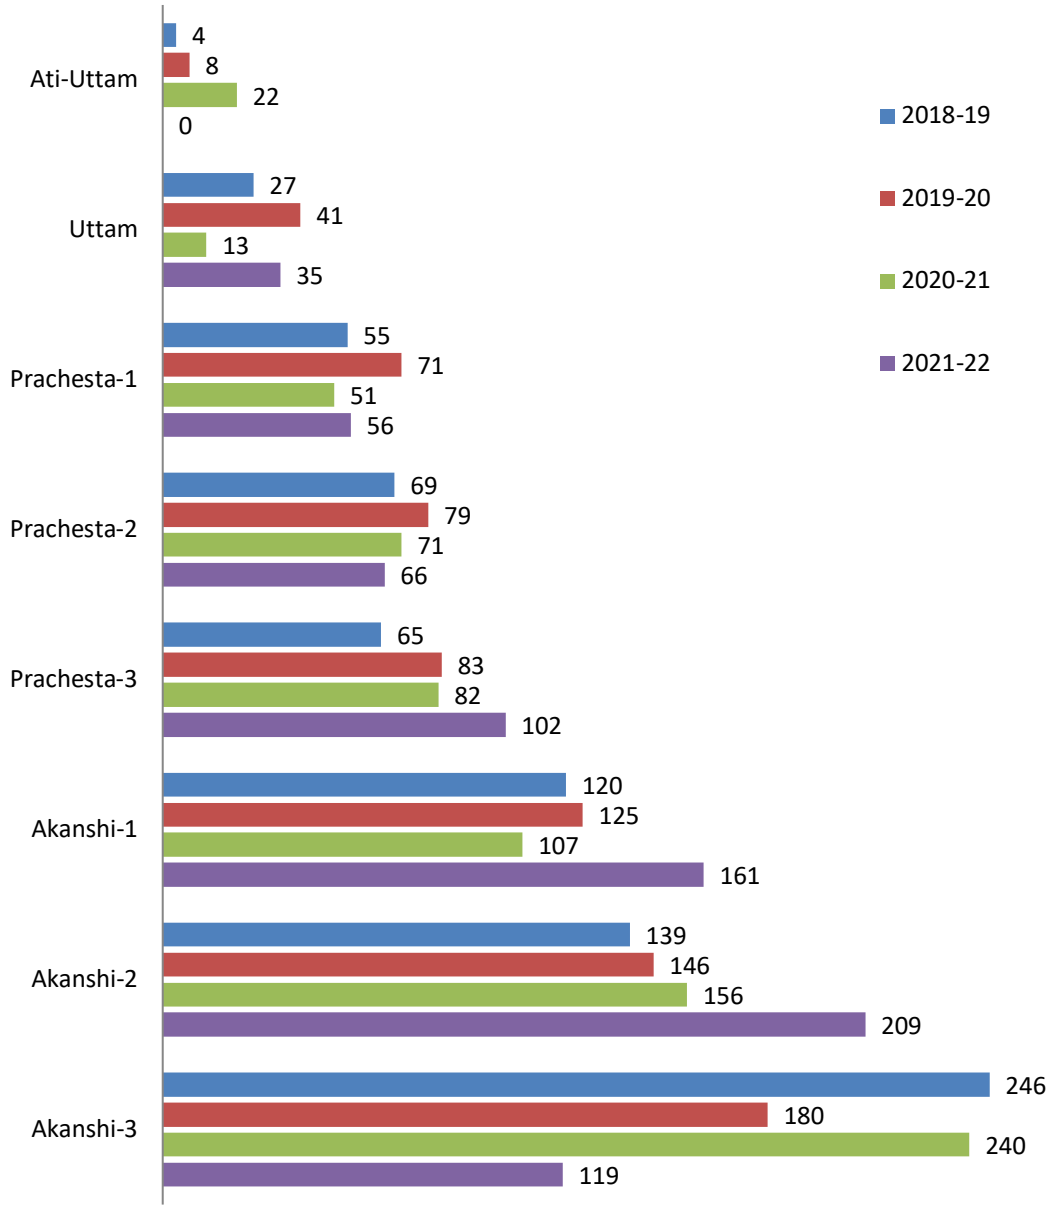
5.4 Chart 5.4.1 presents grade wise number of districts in 4th category viz., School Safety and Child Protection (SS &CP) during 2021-22. In this category, 168 districts made score improvement of over 20 % in 2021-22 as compared to 2019-20, another 99 districts made more than 10 % improvement in score during 2021-22. Overall grade level improvement during 2021-22 is 326.

Chart 5.4.1: Grade wise Number of Districts in the Category- School Safety and Child Protection (SS &CP)



5.5 The Chart 5.5.1 represents the details of districts in various grades in the 5th category viz., Digital Learning (DL) in 2021-22. Under this category, 10 districts have shown over 20 % improvement in score and 74 districts shown improvement of over 10 % in score during 2021-22 as compared to 2019-20. Overall grade level improvement in 2021-22 under the category is 202 districts. However, it is noticed that majority of districts are still bottom 3 grades indicating need for boosting digital learning aspect.

Chart 5.5.1: Grade wise Number of Districts - Category- 5 Digital Learning (DL)



5.6 The Chart 5.6.1 indicates the details of districts in 6th category viz., Governance Processes (GP) in 2021-22. In this category, 81 districts made over 20 % improvements in score and another 82 districts improved their category score by over 10 % during 2021-22. Overall grade level improvement in the category governance process during 2021-22 is 270.
