

Block wise population for prioritizing the establishment of Model Schools under Public-Private Partnership (PPP)

Disclaimer:

Block Wise population has been calculated only for prioritizing the establishment of Model Schools under Public-Private Partnership (PPP). The projection of the population has been considered on the basis of following criteria:

1. In <http://indiawater.gov.in> website, the block wise rural population was uploaded by the National Rural Drinking Water Programme. The site has given the note that “*the block wise population has been uploaded by the respective states after projecting the population based on census 2001 and the decadal growth rate*” and then calculated population for the year 2009.
2. Block wise population have been abstracted from <http://indiawater.gov.in> for year 2009
3. Average Annual Growth Rate (AAGR) for district has been calculated using the following data :
 - a. District wise Census 2001 population.
 - b. District wise Census 2011 population.
4. The calculated AAGR is applied on each block of corresponding district and subsequently generated block wise approx population for year 2011.
5. The State / District / Block wise approx. population is listed below for the year 2011 in following tables

Sl. No.	Particulars	Tables
1	State Wise List where Population is Less than or Equal to .20 lacs	1
2	State Wise List where Population is Greater than .20 lacs and Less than or Equal to 1 lacs	2
3	State Wise List where Population is Greater than 1 lacs and Less than or Equal to 10 lacs	3

Table: 1 State Wise List where Population is Less than or Equal to .20 lacs
