Pariksha Pe Charcha (PPC), an initiative by Prime Minister Shri Narendra Modi to transform exam-related stress into a festival of learning, witnessed unprecedented growth in its 8th edition. Since its beginning in 2018, PPC has evolved into a nationwide movement, garnering a staggering 3.56 crore registrations for its 8th edition in 2025. This also marks a significant increase from the 7th edition, which saw 2.26 crore registrations, reflecting a remarkable surge of 1.3 crore registrations.

Pariksha Pe Charcha has not only become a popular program but has also transformed into a "Jan Andolan" (people's movement), resonating deeply with students, teachers, and parents across the country. The initiative's focus on addressing exam stress and encouraging students to view examinations as a festival – "Utsav" – has struck a chord with people from all walks of life. The overwhelming participation in PPC reflects a growing awareness and acceptance of the importance of mental well-being and holistic education. The program's interactive format, which involves open dialogue between students, teachers, and the Prime Minister, has further contributed to its success.

To further strengthen PPC as a "Jan Andolan," a series of engaging activities were conducted from 12th January 2025 (National Youth Day) to 23rd January 2025 (Netaji Subhash Chandra Bose Jayanti) at the school level. These activities, conducted across States/UTs, aimed to engage students, parents, and teachers in celebrating PPC as a festival. A total of 1.42 crore students, 12.81 lakh teachers, and 2.94 lakh schools participated. These activities were designed to reduce stress, improve focus, and enhance performance during exams and beyond. Students were encouraged to participate in a diverse range of activities, including indigenous games like Kho-Kho and Kabaddi, short-distance marathons, creative meme competitions, engaging Nukkad Natak performances, and eye-catching poster-making. They were also encouraged to share their experiences through student testimonials, participate in student-led discussions, and engage in yoga and meditation sessions to cultivate relaxation and mindfulness. Schools organized plays developed by students, conducted workshops, and invited special guests to share their insights.
